1. TERRITORIAL COOPERATION PROGRAMME ARMENIA - GEORGIA

1.1. BACKGROUND

The Joint Communication ‘A New Response to a Changing Neighbourhood’¹ highlights cross border cooperation between the EaP countries as one of the instruments to tackle economic disparities between regions and raise the quality of life across the area in a sustainable manner. Territorial cooperation between the EaP countries complements bilateral and regional development programmes (including pilot regional development programmes, PRDPs), which promote a strategy-based, inclusive approach to reduce economic and social regional disparities and realise the regional (hence national) economic potential. In the Joint Declaration of the Warsaw Eastern Partnership (EaP) summit of 29-30 September 2011², the participants acknowledged multilateral cooperation and recalled that the EaP could help develop closer ties between the partner countries themselves.

The ENPI Regional East Programme Strategy Paper 2010-2013 and Indicative Programme 2010-2013 identify territorial cooperation in partner countries as one of the sub-priorities of the Priority Area 2 “Economic Development”. In this context, a total of EUR 17.5 million has been allocated to the EaP Territorial Cooperation Programmes. Two components are envisaged: 1) The Eastern Partnership Territorial Cooperation Support Programme (EAPTC), a technical assistance programme (EUR 5 million) launched in November 2012 to strengthen the capacity of local and regional state and non-state actors along the Ukraine-Belarus, Ukraine-Moldova, Georgia-Armenia, and Georgia-Azerbaijan borders to develop and implement cross-border projects; and 2) The Eastern Partnership Territorial Cooperation Programmes.

The Eastern Partnership Territorial Cooperation Programmes will largely build on the experience of the ENPI cross border cooperation (CBC) programmes implemented along the EU external borders in what concerns focusing on local development needs as well as thematic coverage. A distinctive feature – and novelty for the EaP region – of these programmes lies in the fact that the interventions will support the creation of genuine, effective and operational cooperation between border regions of the EaP countries only, whereas ENPI CBC always include an EU Member State as one of the partners.

The cross-border cooperation programme between Armenia and Georgia is carried out in the following eligible areas:

- Georgia: Kvemo Kartli and Samtskhe-Javakheti regions
- Armenia: Shirak, Lori and Tavush regions (marzes)

The implementation of the Programme is overseen by a Joint Decision Making Committee (JDMC) composed of representatives of both participating countries' institutions and civil society. The JDMC is also responsible for selecting projects to be financed under the Programme.

The JDMC is assisted by a Technical Secretariat (TS) based in Tbilisi (Georgia) and a TS antenna located in Vanadzor (Armenia). The TS is the administrative body responsible for the day-to-day management of the Programme including support and advice to grant beneficiaries.

This action, with the objective of promoting sustainable territorial cooperation between the border regions of the EaP countries to support their social and economic development is implemented in indirect centralised management by a Member States agency, GIZ, in accordance with Article 54(2)(c) of Financial Regulation 1605/2002.

¹ COM(2011) 303 final, 25.5.2011.

² Council of the European Union, 14983/11, 30.09.2011.

Acting as Managing Authority for the Eastern Partnership Territorial Programmes, GIZ is responsible for launching calls for proposals as well as evaluating those proposals. It also acts as Contracting Authority concluding and managing contracts, carrying out payments, and recovering sums due.

In this respect, any legal entity whose statutes have been established in another country cannot be considered an eligible local organisation, even if the statutes are registered locally or a 'Memorandum of Understanding' has been concluded.

(3) In order to be eligible for a grant, applicants must not be affected by potential conflict of interest with the Structures of the Programme (Joint Decision Making Committee, Technical Secretariat).

Should such a situation arise during performance of the contract, the beneficiary must immediately inform the Contracting Authority.

The applicant must act with co-applicant(s) as specified under the section 2.1.4.

If awarded the Grant contract, the applicant will become the Beneficiary identified as the Coordinator in Annex III (Special conditions). The Coordinator is the main interlocutor of the Contracting Authority. It represents and acts on behalf of any other co-beneficiary (if any) and coordinates the design and implementation of the Action.

All claims of the co-applicant(s) shall be met by the lead applicant. The Contracting Authority will not enter into any formal agreement with the co-applicant(s).

Co-applicant(s)

The lead applicant of the eligible regions of the Republic of Armenia or of Georgia **must act together with at least one (1) co-applicant** of the eligible regions of the other participating country (Republic of Armenia in case the applicant is from an eligible region of Georgia or Georgia in case the applicant is from an eligible region of the Republic of Armenia).

In the proposal, the budgetary allocation per co-applicant should be clearly identifiable in order to ensure that all partners have financial allocations in adequacy with their respective roles in the activities of the project.

Co-applicant(s) participate in designing and implementing the action, and the costs they incur are eligible in the same way as those incurred by the lead applicant.

Co-applicant(s) must satisfy the eligibility criteria as applicable to the lead applicant himself.

In addition to the categories referred to in section 2.1.1, the following are however also eligible:

- The second and further co-applicants may be registered outside the eligible regions, but established in the Republic of Armenia or Georgia and should have demonstrable experience of operating in the eligible regions of either country.
- Head offices of second and further co-applicants might be registered outside the eligible countries, provided that they operate in the Republic of Armenia or Georgia through registered branches or representations and have demonstrable experience of operating in the eligible regions of either country.

Co-applicant(s) must sign the Mandate in Part B section 4 of the grant application form.

If awarded the Grant contract, the co-applicant(s) will become beneficiaries in the Action (together with the Coordinator).

2.1.2. Affiliated entities

Affiliated entity(ies)

The applicant and its co-applicant(s) may act with affiliated entity(ies).

Only the following entities may be considered as affiliated entities to the applicant and/or to co-applicant(s):

Only entities having a structural link with the applicants, in particular a legal or capital link.

This structural link encompasses mainly two notions:

- (i) Control, as defined in Directive 2013/34/EU on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings:

Entities affiliated to a beneficiary may hence be:

- Entities directly or indirectly controlled by the beneficiary (daughter companies or first-tier subsidiaries). They may also be entities controlled by an entity controlled by the beneficiary (granddaughter companies or second-tier subsidiaries) and the same applies to further tiers of control;
 - Entities directly or indirectly controlling the beneficiary (parent companies). Likewise, they may be entities controlling an entity controlling the beneficiary;
 - Entities under the same direct or indirect control as the beneficiary (sister companies).
- (ii) Membership, i.e. the beneficiary is legally defined as a e.g. network, federation, association in which the proposed affiliated entities also participate or the beneficiary participates in the same entity (e.g. network, federation, association) as the proposed affiliated entities.

The structural link shall as a general rule be neither limited to the action nor established for the sole purpose of its implementation. This means that the link would exist independently of the award of the grant; it should exist before the call for proposals and remain valid after the end of the action.

By way of exception, an entity may be considered as affiliated to a beneficiary even if it has a structural link specifically established for the sole purpose of the implementation of the action in the case of so-called “sole applicants” or “sole beneficiaries”. A sole applicant or a sole beneficiary is an entity formed by several entities (a group of entities) which together comply with the criteria for being awarded the grant. For example, an association is formed by its members.

What is not an affiliated entity?

The following are not considered entities affiliated to a beneficiary:

- Entities that have entered into a (procurement) contract or subcontract with a beneficiary, act as concessionaires or delegates for public services for a beneficiary,
- Entities that receive financial support from the beneficiary,
- Entities that cooperate on a regular basis with the beneficiary on the basis of a memorandum of understanding or share some assets,
- Entities that have signed a consortium agreement under the grant contract.

How to verify the existence of the required link with the beneficiary?

The affiliation resulting from control may in particular be proved on the basis of the consolidated accounts of the group of entities the beneficiary and its proposed affiliates belong to.

The affiliation resulting from membership may in particular be proved on the basis of the statutes or equivalent act establishing the entity (network, federation, association) which the beneficiary constitutes or in which the beneficiary participates.

If the applicants are awarded a contract, their affiliated entity(ies) will not become beneficiary(ies) of the action and signatory(ies) of the contract. However, they will participate in the design and in the implementation of the action and the costs they incur (including those incurred for Implementation Contracts and Financial Support to third parties) may be accepted as eligible costs, provided they comply with all the relevant rules already applicable to the beneficiary(ies) under the grant contract.

Affiliated entity(ies) must satisfy the same eligibility criteria as the applicant and the co-applicant(s). They must sign the affiliated entity(ies) statement in Part B section 5 of the grant application form.

In addition to the categories referred to in section 2.1.1, the following are however also eligible:

- Affiliated entity(ies) may not be a legal body itself, however a structural link with the lead applicant (or respective co-applicant) should be clearly identifiable from the supporting documents (see section 2.4).
- Affiliated entities may be registered outside the eligible regions, but be established in the Republic of Armenia or Georgia and should have demonstrable experience of operating in the eligible regions of either country.

2.1.3. Associates and Contractors

The following entities are neither applicant nor affiliated entity (ies) and do not have to sign the "mandate" or "affiliated entities' statement":

- Associates

Other organisations may be involved in the action. Such associates are an interested party taking part in the implementation and play a real role in the action but may not receive funding from the grant, nor can their costs be covered by the grant with the exception of per diem or travel costs. Associates do not have to meet the eligibility criteria referred to in section 2.1.1. Associates must be mentioned in Part B section 6 — ‘Associates of the Applicant participating in the Action’ — of the Grant Application Form.

- Contractors

The grant beneficiaries and their affiliated entities are permitted to award contracts. Associates or affiliated entity(ies) cannot be also contractors in the project. Contractors are subject to the procurement rules set out in Annex IV to the standard grant contract.

2.1.4. Concept of Lead Applicant for each proposal

Each proposal must have at least two cross-border applicants, one from the eligible regions of the Republic of Armenia and one from the eligible regions of Georgia, acting in partnership. One of the two applicants will act as lead applicant; the other will be its co-applicant.

Both, lead applicant and co-applicant(s) must sign and date the Partnership Agreement (Annex L of the Grant Application Form) before contracting.

This partnership **will not be accepted** when established between operators responding to the same name **and** belonging to the same mother organisation, irrespective of the fact that they are established in each of the two eligible participating countries.

If awarded the grant contract, the lead applicant will become the beneficiary identified as the coordinator and co-applicants will become the co-beneficiaries following the award of the grant.

Therefore the lead applicant shall assume the following responsibilities:

- a) It shall lay down an agreement with the project co-applicant(s), in order to guarantee the sound financial management of the EaPTC funds allocated to the action, including the arrangements for recovering amounts unduly paid;

- b) it shall be the intermediary for all communications between the co-applicant(s) (later defined as co-beneficiary(ies)), affiliated entity(ies) and the Contracting Authority;
- c) it shall be responsible for ensuring the implementation of the entire action and have full financial responsibility for ensuring that the action is implemented in accordance with the grant contract;
- d) it shall monitor that the action is implemented in accordance with grant contract and ensure coordination with all beneficiary(ies) in the implementation of the action;
- e) it shall be responsible for supplying all documents and information to the Contracting Authority which may be required under this contract, in particular in relation to the requests for payment. Where information from the beneficiary(ies) is required, the lead applicant (coordinator) shall be responsible for obtaining, verifying and consolidating this information before passing it on to the Contracting Authority. Any information given, as well as any request made by the lead applicant to the Contracting Authority, shall be deemed to have been given in agreement with all beneficiary(ies);
- f) it shall inform the Contracting Authority of any event likely to affect or delay the implementation of the action;
- g) it shall be responsible for transferring the Community contribution (EaPTC funds) to co-applicant(s) and affiliated entities (if any);
- h) it shall ensure that the expenditure presented by the co-applicant(s) (co-beneficiary(ies)) and affiliated entities (if any) has been paid for the purpose of implementing the action and corresponds to the activities agreed between the applicants/co-applicant(s)/affiliated entities (if any).
- i) it shall inform the Contracting Authority of any change in the legal, financial, technical, organisational or ownership situation of any of the co-applicants as well as, of any change in the name, address or legal representative of any of the co-applicant(s);
- j) it shall make appropriate arrangements for providing the financial guarantee,(if requested) for grants exceeding EUR 60,000, under the provisions of Article 7.2.11 of the Special Conditions;
- k) it shall establish the payment requests in accordance with the contract;
- l) it shall be the sole recipient, on behalf of all of the beneficiary(ies), of the payments of the Contracting Authority. The lead applicant (coordinator) shall ensure that the appropriate payments are then made to the co-beneficiary(ies) without unjustified delay;
- g) it shall not delegate any, or part of, these tasks to the co-applicant(s) (co-beneficiary(ies)) or other (e.g. affiliated) entities;
- h) it shall be responsible in the event of audits, checks, monitoring or evaluations, as described in Article 16 of the general conditions for providing all the necessary documents, including the accounts of co-beneficiary(ies), copies of the most relevant supporting documents and signed copies of any contract concluded according to Article 10 of the general conditions.

2.1.5. Eligible actions: actions for which an application may be made

Definition:

An action is composed of a set of activities.

To be eligible, an **action** which may be financed under this call **must** fulfil the following criteria:

All joint actions must have a clear cross border impact on the targeted regions demonstrated by the proposed activities, outputs and results intended to produce sustainable positive effects in the areas concerned.

The cross-border character of the action shall be demonstrated by applying at least one of the following conditions, as described below: joint development, joint staffing, joint implementation and/or joint financing.

Joint development – means that the joint action must be designed in common by partners, meaning that applications must clearly integrate the ideas, priorities and actions of all stakeholders. The Lead Applicant (Coordinator) is the coordinator of this process, but should include other partners from the beginning of the development process;

Joint implementation – means that the activities to be carried out for the implementation of the joint action are distributed in a balanced way among the partners. There is a clear content-based link between the activities implemented in each country/region and regular contacts are ensured between all the sides. The Lead Applicant (Coordinator) is responsible for ensuring that the activities are properly coordinated, that schedules are kept and that the right quality levels are achieved;

Joint staffing – means that the joint action should not duplicate functions. Within the staff, a balanced distribution of activities and responsibilities shall be made, for example, one project manager and one financial manager should be sufficient for the entire project in case of small scale projects.

Joint financing – means that there will be only one grant contract per joint action and there must be one common budget and common reporting. The common budget shall be divided between the partners according to a balanced distribution of activities to be carried out by them. The Lead Applicant (Coordinator) is responsible for the administration and distribution of the funds to the partners and for reporting on their use.

The following types of actions are **ineligible**:

Financial support to third parties⁶

Applicants may not propose financial support to third parties.

Visibility

The Applicants must take all necessary steps to publicise the fact that the European Union has financed or co-financed the Action. As far as possible, actions that are wholly or partially funded by the European Union must incorporate information and communication activities designed to raise the awareness of specific or general audiences of the reasons for the action and the EU support for the action in the country or region concerned, as well as the results and the impact of this support.

Applicants must comply with the objectives and priorities and guarantee the visibility of the EU financing (see the Communication and Visibility Manual for EU external actions specified and published by the European Commission at http://ec.europa.eu/europeaid/work/visibility/index_en.htm).

⁶ These third parties are neither affiliated entity(ies) nor associates nor contractors.

Number of applications and grants per applicants

The lead applicant **shall not submit more than 1 application** under this Call for Proposals. **If a lead applicant submits more than one application all its proposals submitted as lead applicant will be rejected.**

The lead applicant **may not be awarded more than 1 grant** under this Call for Proposals.

The lead applicant **may be a co-applicant or an affiliated entity** in another application at the same time.

A co-applicant/affiliated entity **may submit more than 1 application** under this Call for Proposals.

A co-applicant/affiliated entity **may be awarded more than 1 grant** under this Call for Proposals.

A co-applicant/affiliated entity **may be the applicant or an affiliated entity** in other applications at the same time.

2.1.6. Eligibility of costs: costs that can be included

Only 'eligible costs' can be covered by a grant. The categories of costs that are eligible and non-eligible are indicated below. The budget is both a cost estimate and an overall ceiling for 'eligible costs'.

The reimbursement of eligible costs may be based on **actual costs incurred by the Beneficiary(ies) and affiliated entity(ies)**.

Recommendations to award a grant are always subject to the condition that the checks preceding the signing of the contract do not reveal problems requiring changes to the budget (such as arithmetical errors, inaccuracies, unrealistic costs and ineligible costs). The checks may give rise to requests for clarification and may lead the Contracting Authority to impose modifications or reductions to address such mistakes or inaccuracies. It is not possible to increase the grant or the percentage of EU co-financing as a result of these corrections.

It is therefore in the applicant's interest to provide a **realistic and cost-effective budget**.

Eligible direct costs

As stipulated in article 14 of Annex II - General Conditions to the Standard Grant Contract, eligible costs are actual costs incurred by the Beneficiary(ies) which meet all the following criteria:

- a) They are incurred during the implementation of the action as specified in Article 2 of the Special Conditions. In particular:
 - (i) Costs relating to services and works shall relate to activities performed during the implementation period. Costs relating to supplies shall relate to delivery and installation of items during the implementation period. Signature of a contract, placing of an order, or entering into any commitment for expenditure within the implementation period for future delivery of services, works or supplies after expiry of the implementation period do not meet this requirement;
 - (ii) Costs incurred should be paid before the submission of the final reports. They may be paid afterwards, provided they are listed in the final report together with the estimated date of payment;
 - (iii) An exception is made for costs relating to final reports, including expenditure verification, audit and final evaluation of the Action, which may be incurred after the implementation period of the Action;
- b) they are indicated in the estimated overall budget for the action;
- c) they are necessary for the implementation of the action;

- d) they are identifiable and verifiable, in particular being recorded in the accounting records of the Beneficiary(ies) and determined according to the accounting standards and the usual cost accounting practices applicable to the Beneficiary(ies);
- e) they comply with the requirements of applicable tax and social legislation;
- f) they are reasonable, justified and comply with the requirements of sound financial management, in particular regarding economy and efficiency.

Subject to Article 14.1 and, where relevant, to the provisions of Annex IV being respected, the following direct costs of the Beneficiary(ies) shall be eligible:

- a) the cost of staff assigned to the action, corresponding to actual gross salaries including social security charges and other remuneration-related costs; salaries and costs shall not exceed those normally borne by the Beneficiary(ies), unless it is justified by showing that it is essential to carry out the action;
- b) travel and subsistence costs for staff and other persons taking part in the action, provided they do not exceed those normally borne by the Beneficiary(ies) nor the up to date rates provided by GIZ;
- c) purchase costs for equipment and supplies (new or used) specifically for the purposes of the action, provided that ownership is transferred at the end of the action when required in Article 7.5 of the General Conditions;
- d) costs of consumables;
- e) costs entailed by contracts awarded by the Beneficiary(ies) for the purposes of the action referred to implementation contracts in Article 10 of the General Conditions;
- f) costs deriving directly from the requirements of the contract (dissemination of information, evaluation specific to the action, audits, translation, reproduction, insurance, etc.) including financial service costs (in particular the cost of transfers and financial guarantees where required according to the contract).

The applicants (and where applicable its affiliated entities) agree that the expenditure verification(s) referred to in Article 15.7 of the General Conditions to the Standard Grant Contract (see Annex G of the Guidelines) will be carried out by the external body authorised by the Contracting Authority

Contingency reserve

The budget may include a contingency reserve not exceeding 5 % of the estimated direct eligible costs. It can only be used with the **prior written authorisation** of the Contracting Authority.

Eligible indirect costs

The indirect costs incurred in carrying out the action may be eligible for flat-rate funding, but the total must not exceed 7 % of the estimated total eligible direct costs. Indirect costs are eligible provided that they do not include costs assigned to another budget heading in the standard grant contract. The applicant may be asked to justify the percentage requested before the contract is signed. However, once the flat rate has been fixed in the special conditions of the standard grant contract, no supporting documents need to be provided.

If any of the applicants or affiliated entity(ies) is in receipt of an operating grant financed by the EU, it may not claim indirect costs on its incurred costs within the proposed budget for the action.

Contributions in kind

Contributions in kind mean the provision of goods or services to a Beneficiary(ies) or affiliated entity(ies) free of charge by a third party. As contributions in kind do not involve any expenditure for a Beneficiary(ies) or affiliated entity(ies), they are not eligible costs.

Contributions in kind may not be treated as co-financing.

However, if the description of the action as proposed includes contributions in kind, the contributions have to be made.

Ineligible costs

The following costs are not eligible:

- debts and debt service charges (interest);
- provisions for losses or potential future liabilities;
- costs declared by the beneficiary(ies) and financed by another action or work programme receiving a European Union (including through EDF) grant;
- purchase of land or buildings;
- currency exchange losses;
- credit to third parties;
- taxes, duties and charges, including VAT;
- contributions in kind;
- costs for actions implemented before the start or after the expiry of implementation period as stipulated in the grant contract except for costs relating to final reports, including expenditure verification, and final evaluation of the action, which may incur after the implementation period of the action.
- Salary costs of the personnel of national administration.⁷

2.2. HOW TO APPLY AND THE PROCEDURES TO FOLLOW

2.2.1. Application forms

Applications must be submitted in accordance with the instructions on the Concept Note and the Full Application form in the Grant Application Form annexes to these Guidelines (Annex A).

Applicants must apply in English.

⁷ The salaries of civil servants from local administration are considered as eligible costs in case they relate to the costs of activities which the relevant public authority would not have carried out if the action were not undertaken. However, the salaries cannot be financed from the EU contribution. They can be considered only as co-financing contribution.

Please complete the full application form carefully and as clearly as possible so that it can be assessed properly.

Any error or major discrepancy related to the points listed in the instructions on the Concept Note or any major inconsistency in the full application form (e.g. if the amounts in the budget worksheets are inconsistent) may lead to the rejection of the application.

Clarifications will only be requested when the information provided is unclear and thus prevents the Contracting Authority from conducting an objective assessment.

Hand-written applications will not be accepted.

Please note that only the application form and the published annexes which have to be filled in (budget, logical framework) will be evaluated. It is therefore of utmost importance that these documents contain ALL the relevant information concerning the action. No additional annexes should be sent.

Budgetary information concerning the action should be provided using round figures in Euros and be presented only in the Budget (Annex B).

Applicants should note that there are **three worksheets in Annex B** that have to be completed:

Worksheet 1 – ‘Budget for the action’ (worksheet 1 must include **all eligible costs** that are foreseen under the action); each cost item should be broken down as per each applicant, co-applicant and affiliated entity and names of applicants (as well as co-applicant and affiliated entities) should be indicated along with the description of each particular cost. For each salary line, the percentage of time devoted to the action should be indicated along with the position title.

Applicants are requested to pay attention to and follow the directions given in the footnotes of the worksheet.

Worksheet 2 – ‘Justification of the budget for the Action’ must provide a narrative explanation of each budget item demonstrating the necessity of the costs and how they relate to the action and also an explanation of the calculation of the estimated costs.

Worksheet 3 – ‘Expected sources of funding’ - must indicate the amount and percentage of financing per source, e.g. requested EU contribution, applicant's contribution, any other donors' contribution.

2.3. EVALUATION AND SELECTION OF APPLICATIONS

Applications will be examined and evaluated by the Contracting Authority with the possible assistance of external assessors. All actions submitted by applicants will be assessed according to the following steps and criteria.

If the examination of the application reveals that the proposed action does not meet the eligibility criteria stated in paragraph 2.1, the application will be rejected on this sole basis.

(1) STEP 1: OPENING & ADMINISTRATIVE CHECKS AND CONCEPT NOTE EVALUATION

The following will be assessed:

- Compliance with the submission deadline. If the deadline has not been met, the application will automatically be rejected.
- The Application Form satisfies all the criteria specified in points 1-5 of the Checklist (Section 7 of Part B of the grant application form). If any of the requested information is missing or is incorrect, the application may be rejected on that **sole** basis and the application will not be evaluated further.

The Concept Notes that pass the first administrative check will be evaluated by external assessors on the relevance and design of the proposed action.

The Concept Note will receive an overall score out of 50 using the breakdown in the evaluation grid below. The evaluation will also check on compliance with the instructions on the Concept Note, which can be found in Part A of the Application Form.

The evaluation criteria are divided into headings and subheadings. Each subheading will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

1. Relevance of the action	Sub-score	30
1.1 How relevant is the proposal to the objectives and priorities of the Call for Proposals?*	5x2**	
1.2 How relevant to the particular needs and constraints of the target country(ies) or region(s) is the proposal (including synergy with other EU initiatives and avoidance of duplication)?	5	
1.3 How clearly defined and strategically chosen are those involved (final beneficiaries, target groups)? Have their needs been clearly defined and does the proposal address them appropriately?	5	
1.4 Does the proposal demonstrate a cross-border character? (i.e. fulfils at least one of the following criteria: (1) joint development, (2) joint implementation, (3) joint staffing, (4) joint financing)*	5 x2*	
2. Design of the action	Sub-score	20
2.1 How coherent is the overall design of the action?	5x2**	

In particular, does it reflect the analysis of the problems involved, take into account external factors and relevant stakeholders?		
2.2 Is the action feasible and consistent in relation to the objectives and expected results?	5x2**	

TOTAL SCORE 50

* A score of 5 (very good) will only be allocated if the proposal addresses all four criteria. If none of the four criteria is addressed, the proposal will automatically be rejected.

**these scores are multiplied by 2 because of their importance.

Once all Concept Notes have been assessed, a list will be drawn up with the proposed actions ranked according to their total score.

Firstly, only the Concept Notes with a score of at least 30 will be considered for pre-selection.

Secondly, the number of Concept Notes will be reduced, taking account of the ranking, to the number of Concept Notes whose total aggregate amount of requested contributions is equal to at least twice more of the available budget for this Call for Proposals.

After the evaluation of Concept Notes the Contracting Authority will send letters to all applicants, indicating whether their application was submitted by the deadline, informing them of the reference number they have been allocated, whether the Concept Note was evaluated and the results of that evaluation. The Evaluation Committee will then proceed with the applicants whose proposals have been pre-selected.

(2) STEP 2: EVALUATION OF THE FULL APPLICATION

Firstly, the following will be assessed:

- The full application form satisfies all the criteria specified in points 1-9 of the Checklist (Section 7 of Part B of the grant application form). If any of the requested information is missing or is incorrect, the application may be rejected on that **sole** basis and the application will not be evaluated further.

The quality of the applications, including the proposed budget and capacity of the applicants and affiliated entity(ies), will be evaluated by external assessors using the evaluation criteria in the evaluation grid below. There are two types of evaluation criteria: selection and award criteria.

The selection criteria help to evaluate the applicant(s)'s and affiliated entity(ies)'s operational capacity and the applicant's financial capacity and to ensure that they:

- have stable and sufficient sources of finance to maintain their activity throughout the proposed action and, where appropriate, to participate in its funding;
- have the management capacity, professional competencies and qualifications required to successfully complete the proposed action. This also applies to any affiliated entity(ies) of the applicants.

The award criteria help to evaluate the quality of the applications in relation to the objectives and priorities, and to award grants to projects which maximise the overall effectiveness of the Call for Proposals. They help to select applications which the Contracting Authority can be confident will comply with its objectives and priorities. They cover the relevance of the action, its consistency with the objectives of the Call for Proposals, quality, expected impact, sustainability and cost-effectiveness.

Scoring:

The evaluation grid is divided into sections and subsections. Each subsection will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.

Evaluation Grid

4.1 Is the action likely to have a tangible impact on its target groups?	5

Will there be local 'ownership' of the results of the action?</i>) - at policy level (where applicable) (<i>what will be the structural impact of the action —</i>	5

Note on Section 1. Financial and operational capacity

If the total score for section 1 is less than 12 points, the application will be rejected. If the score for at least one of the subsections under section 1 is 1, the application will also be rejected.

If the total score is less than 50 points, the application will be rejected.

Provisional selection

After the evaluation, a table will be drawn up listing the applications ranked according to their score and within the limits of the funds available. In addition, a reserve list will be drawn up following the same criteria to be used if more funds should become available during the validity period of the reserve list.

The applicants that has been provisionally selected or placed on the reserve list will be informed in writing by the Contracting Authority inviting those whose proposals have been provisionally selected to supply the required supporting documents.

(3) STEP 3: VERIFICATION OF ELIGIBILITY OF THE APPLICANTS AND AFFILIATED ENTITY(IES)

The eligibility verification, based on the supporting documents requested by the Contracting Authority (see Section 2.4) will only be performed for the applications that have been provisionally selected according to their score and within the available financial envelope.

- The Declaration by the applicant (Section 8 of Part B the grant application form) will be cross-checked with the supporting documents provided by the applicant. Any missing supporting document or any incoherence between the Declaration by the applicant and the supporting documents may lead to the rejection of the application on that sole basis.
- The eligibility of applicants, the affiliated entities(ies), and the action will be verified according to the criteria set out in Sections 2.1.1, 2.1.2 and 2.1.3.

Any rejected application will be replaced by the next best placed application on the reserve list that falls within the available financial envelope.

During the eligibility check, the Contracting Authority can cooperate with national authorities and delegations of the European Union in Armenia and Georgia to verify legal status of applicants as well as to ensure that there is no overlapping with other EU financing. These verifications and clarifications shall comply with principles of impartiality and confidentiality.

The final report shall be sent to JDMC for approval, only deemed valid after endorsement is obtained from the European Commission.

2.4. SUBMISSION OF SUPPORTING DOCUMENTS FOR PROVISIONALLY SELECTED APPLICATIONS

An applicant that has been provisionally selected or placed on the reserve list will be informed in writing by the Contracting Authority. It will be requested to supply the following documents in order to allow the Contracting Authority to verify the eligibility of the applicant, (if any) of the co-applicant(s) and (if any) of their affiliated entity(ies)⁸:

Required supporting documents for all applicants (applicant, co-applicant(s) and affiliated entities

1. The statutes or articles of association of the applicant, (if any) of each co-applicant(s) and (if any) of each affiliated entity(ies).⁹
2. A copy of the applicant's latest accounts (the profit and loss account and the balance sheet for the last financial year for which the accounts have been closed)¹⁰. A copy of the latest account is neither required from the co-applicant(s) nor (if any) affiliated entity(ies)).

⁸ No supporting document will be requested for applications for a grant not exceeding EUR 60,000.

⁹ Where the applicant and/or a co-applicant(s) and or an affiliated entity(ies) is a public body created by a law or any other document, a copy of the said law or any other official document proving the establishment of the public body, must be provided. In case of affiliated entity(ies) if statutes or articles of association are not available, any other document proving the structural link between the affiliated entity and the applicant (or co-applicant) shall be provided.

¹⁰ This obligation does not apply to public bodies. An external audit report may be provided instead of a copy of the applicant's latest accounts if the accounts are in practice the same documents as the external audit report.

3. Legal entity sheet (see annex D of these Guidelines) duly completed and signed by each of the applicants (i.e. by the applicant and (if any) by each co-applicant(s), accompanied by the justifying documents requested there. **This document must be submitted as original.**
4. A recent copy of company registration certificate or any equivalent document obtained from the respective authorities (as defined according to the local legislation) also indicating the legal address of the applicant(s) (co-applicants, affiliated entities).

1. Proof that land or premise is owned by the applicant, co-applicant(s) or affiliated entities or it is leased at least for 10 years.
2. Building permit or the proof that such permit is not required by the law.

N.B. For all applicants, it is foreseen that additional supporting documents may be required by the Contracting Authority (especially those eliminating the risk that applicants (co-applicants, affiliated entities) are in any of the conditions in section 2.3.3 of the Practical Guide) to verify the eligibility of applicant, co-applicant and affiliated entities.

Additional Requirements for affiliated entity(ies):

If not already proved by the supporting documents requested above, a document demonstrating the clear Capital or the Legal link of the affiliated entity with the respective applicant or co-applicant.

In the eventuality that the Contracting Authority is still not satisfied with the strength, solidity, and guarantee offered by the structural link between one of the applicants and its affiliated entity, it can require the submission of the missing documents allowing for its conversion into co-applicant. If all the missing documents for co-applicants are submitted, and provided all necessary eligibility criteria are fulfilled, the above mentioned entity becomes a co-applicant for all purposes. The applicant has to submit the application form revised accordingly.

Additional Requirements for co-applicants or affiliated entities from geographical areas other than those considered as eligible under this call for proposals:

A document demonstrating their previous experience in conducting activities in the eligible regions (e.g. references from donors, previous grant agreements, etc.).

Requirements for all supporting documents:

Under this call for proposals supporting documents are NOT uploaded in PADOR, therefore they must be supplied in the form of either originals or photocopies (i.e. showing legible stamps, signatures and dates) of the said originals. However, the Legal entity sheet, the financial identification form must always be submitted in original. The Contracting Authority reserves the right to ask for originals or notarized copies of the supporting documents submitted as photocopies. If any deviation between the copies submitted on application stage and notarized copies (or originals) requested by the Contracting Authority is observed, the application may be rejected.

If supporting documents are not available in the language of this call for proposals applicants can submit them in national language, however a translation into English of the relevant parts of these documents proving the applicant(s)'s eligibility, must be attached for the purpose of analysing the application.

If the abovementioned supporting documents are not provided before the deadline indicated in the request for supporting documents sent to the applicant by the Contracting Authority, the application may be rejected.

2.6. CONDITIONS FOR IMPLEMENTATION AFTER THE CONTRACTING AUTHORITY'S DECISION TO AWARD A GRANT

Following the decision to award a grant, the Beneficiary(ies) will be offered a contract based on the Contracting Authority's grant contract (see Annex G of these Guidelines). By signing the application form (Annex A of these Guidelines), the applicants agree, if awarded a grant, to accept the contractual conditions of the standard grant contract.

The Contracting Authority will prepare and sign the grant contracts with the lead partners of the projects selected for funding after the European Commission has endorsed the JDMC decision. Prior to the signature of the grant contract, all project partners shall lay down the arrangements for their relations with regard to management and implementation of the project to a model partnership agreement (Annex L).

On the contracting stage a financial identification form of the applicant (not from co-applicant(s)) will be requested, conforming to the model attached at Annex E of these Guidelines, certified by the bank to which the payments will be made. This bank should be located in the country where the applicant is established. **This document must be submitted as original.**

Implementation contracts

Where implementation of the action requires the Beneficiary(ies) and its affiliated entity(ies) (if any) to award procurement contracts, it must award the contract to the tenderer offering the best value for money, that is to say, the best price-quality ratio, in compliance with the principles of transparency and equal treatment for potential contractors, care being taken to avoid any conflict of interests. To this end, the Beneficiary must follow the procedures set out in Annex IV to the standard grant contract.
